**The "higher Law" Background of American Constitutional Law** Edward Samuel Corwin  
1971  
**Global Perspectives on Constitutional Law**

Vikram Amar 2009 An ideal supplement for professors who wish to incorporate comparative law into their constitutional law courses, Global Perspectives on Constitutional Law introduces students to the various ways that nations other

than the United States resolve contemporary constitutional questions. Covering both structural issues and individual rights, the book offers a wide but select range of readings on interesting constitutional issues in sixteen accessible chapters. Each brief chapter presents foreign case materials on a particular constitutional topic along with notes and questions that further illuminate the comparisons between U.S. constitutional law and that of other nations. Featuring selections by expert contributors from a variety of ideological and demographic backgrounds, the volume is designed to encourage students to reexamine and deepen their understanding of U.S. constitutional law in light of the alternatives offered by other systems. Features\*Modular design of chapters allows instructors to pick and choose which topics they use for comparative study\*Brief chapters can be easily integrated into relevant class discussions\*Chapters authored by top constitutional law scholars who frame the cases

with introductory and concluding comments\*Covers a broad range of contemporary constitutional issues including property rights, abortion rights, regulation of hate speech, regulation of campaign finance, and religious freedom

**Constructing Civil Liberties** Ken I. Kersch  
2004-08-02 Sample Text

**American Constitutional Law** Laurence H. Tribe 1978

**The Practice of American Constitutional Law**  
H. Jefferson Powell 2022-06-30 Americans often think about constitutional law in terms of high-profile decisions by the Supreme Court - decisions that divide the justices by ideology, not law. This focus often leads to the erroneous conclusion that constitutional law arguments are, and can only be, political in substance. In *The Practice of American Constitutional Law*, H. Jefferson Powell demonstrates that there is a longstanding, shared practice of constructing and evaluating constitutional law claims that

transcends current political disagreements. Powell describes how lawyers and judges identify constitutional problems by using a specifiable method of inquiry that enables them to agree on what the questions are, and thus what any plausible answer must address, even when disagreement over the most persuasive answers remains. Rather than being simply politics by other means, constitutional law is the successful practice of giving substance to the Constitution as supreme law.

**The Meaning of Criminal Law** Mohammed Saif-Alden Wattad 2008-01 The book discusses the constitutional grounds of substantive criminal law in American law. Addressing touchstone cases of the U.S. Supreme Court on substantive criminal law, the book proposes that the Court has consistently failed to provide a theory of substantive criminal law. In addition, the book criticizes the Court's superficial understanding of fundamental principles of criminal theory. More specifically, in highlighting the inherent nexus

between constitutional law and substantive criminal law, the book examines the American Supreme Court's reluctance to entangle with the constitutional aspects of substantive criminal law. The book rejects the argument that the American Constitution includes no language of substantive criminal law. Inquiring into the possible interactions between constitutional law and criminal law, the book offers a complete theory of the fundamental principles of substantive criminal law. The book provides a wider and deeper panorama of the whole theory of criminal law, thus providing the vital legal tools for addressing many other criminal law questions in future.

*American Constitutional Law, Volume I: Sources of Power and Restraint* Otis Stephens, Jr. 2007-02-27 AMERICAN CONSTITUTIONAL LAW, Volumes I and II, combines cases, decisions, and authorial commentary to maximize your learning and understanding in this course. These comprehensive volumes cover the entire range of

topics in constitutional law. Each of the chapters includes an extended essay providing the legal, historical, political, and cultural contexts for the set of edited decisions from the United States Supreme Court case that follows. In selecting, editing, and updating the materials, the authors emphasize recent trends in major areas of constitutional interpretation. At the same time, the authors include many landmark decisions, some of which retain importance as precedents while others illustrate the transient nature of constitutional interpretation. Because the book provides a good balance of decisions and authorial commentary, this text appeals to instructors of law as well as instructors of political science. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

### **Constitutional Law for a Changing America**

Lee Epstein 2013-04-09 Known for attentive revising and streamlining, the authors continue

to strengthen the distinctive features of their best-selling text-its currency, scholarship, and the inclusion of both concurring and dissenting opinions-while closely following the pressing issues the Roberts Court has taken up in recent years. Author commentary preceding excerpted opinions includes: the case Facts and key Arguments made by the attorneys on both sides; Aftermath boxes that reveal what happened to litigants after a ruling; Global Perspective boxes that explain how U.S. case law compares to other nations; and NEW to these editions, Annotated Readings that give direction about where to go for more information.

**American Constitutional Law** Bernard Schwartz 1955

*American Constitutional Law* Bernard Schwartz 1955

Books in Series 1985 Vols. for 1980- issued in three parts: Series, Authors, and Titles.

**United States Constitutional Law** DANIEL A.. SIEGEL FARBER (NEIL S.) 2019-02-06 United

States Constitutional Law guides law students, political science students, and engaged citizens through the complexities of U.S. Supreme Court doctrine--and its relationship to constitutional politics--in key areas ranging from federalism and presidential power to equal protection and substantive due process. Rather than approach constitutional law as a static structure or imagine the Supreme Court as acting in isolation from society, the book elaborates and clarifies key constitutional doctrines while also drawing on scholarship in law and political science that relates the doctrines to large social changes such as industrialization, social movements such as civil rights and second-wave feminism, and institutional tensions between governmental actors. Combining legal analysis with historical narrative and sensitivity to political context, the book provides deeper understanding of how constitutional law arises, functions, and changes in a complex, often-divided society.

*American Constitutional Law* Laurence H. Tribe

1999

*An Introduction to Constitutional Law* Randy E. Barnett 2019-09-13 Buy a new version of this book and receive access to the video series that accompanies the text hosted on CasebookConnect.com. This multimedia platform combines a book and video series that will change the way you study constitutional law. An Introduction to Constitutional Law teaches the narrative of constitutional law as it has developed over the past two centuries. All students—even those unfamiliar with American history—will learn the essential background information to grasp how this body of law has come to be what it is today. An online library of sixty-three videos brings the Supreme Court’s one hundred most important decisions to life. These videos are enriched by photographs, maps, and even audio from the Supreme Court. The book and videos are accessible for all levels: law school, college, high school, home school, and independent study. Students can read and

watch these materials before class to prepare for lectures or study after class to fill in any gaps in their notes. And, come exam time, students can binge-watch the entire canon of constitutional law in about twelve hours. To receive access to the video series you must purchase a new version of the book.

### **Liberalism and American Constitutional Law**

Rogers M. Smith 1990 Rogers Smith describes the adverse influence of modern liberalism's governing ideas on the development of American constitutional law and offers a new, more purposive theory to suit contemporary needs. He begins with a fresh analysis of the liberal goals shared by America's constitutional framers and points out the weaknesses of their political thought. Examining vital constitutional doctrines of due process, free speech, voting apportionment, and economic welfare, he demonstrates how contemporary law is often an incoherent patchwork of principles drawn from different historic versions of liberalism. Smith

considers and discards the major modern theories in political philosophy that bear on constitutional law: the democratic relativism of Alexander Bickel and John Hart Ely, the higher-law views inherited from America's religious traditions, and the neo-Kantian liberalism of Ronald Dworkin and John Rawls. Returning instead to the early liberalism of John Locke, he suggests how a theory centered on the Enlightenment commitment to promoting human capacities for reflective self-direction, or "rational liberty," might better guide current constitutional debates.

**Law 101** Jay M. Feinman 2018 There are no secret books : you can understand the law -- The supreme law of the land : constitutional law -- First freedoms : constitutional rights -- Your day in court : the litigation process -- Hot coffee and crashing cars: Tort Law -- A deal's a deal : contract law -- You are what you own : property law -- Crime doesn't pay : criminal law -- Protecting the innocent, freeing the guilty :

criminal procedure

**Comparative Constitutional Law** Tom

Ginsburg 2011-01-01 This landmark volume of specially commissioned, original contributions by top international scholars organizes the issues and controversies of the rich and rapidly maturing field of comparative constitutional law. Divided into sections on constitutional design and redesign, identity, structure, individual rights and state duties, courts and constitutional interpretation, this comprehensive volume covers over 100 countries as well as a range of approaches to the boundaries of constitutional law. While some chapters reference the text of legal instruments expressly labeled constitutional, others focus on the idea of entrenchment or take a more functional approach. Challenging the current boundaries of the field, the contributors offer diverse perspectives - cultural, historical and institutional - as well as suggestions for future research. A unique and enlightening volume, Comparative

Constitutional Law is an essential resource for students and scholars of the subject.

**51 Imperfect Solutions** Jeffrey S. Sutton 2018

"When we think of constitutional law, we invariably think of the United States Supreme Court and the federal court system. Yet much of our constitutional law is not made at the federal level. In 51 Imperfect Solutions, U.S. Court of Appeals Judge Jeffrey S. Sutton argues that American Constitutional Law should account for the role of the state courts and state constitutions, together with the federal courts and the federal constitution, in protecting individual liberties. The book tells four stories that arise in four different areas of constitutional law: equal protection; criminal procedure; privacy; and free speech and free exercise of religion. Traditional accounts of these bedrock debates about the relationship of the individual to the state focus on decisions of the United States Supreme Court. But these explanations tell just part of the story. The book corrects this

omission by looking at each issue-and some others as well-through the lens of many constitutions, not one constitution; of many courts, not one court; and of all American judges, not federal or state judges. Taken together, the stories reveal a remarkably complex, nuanced, ever-changing federalist system, one that ought to make lawyers and litigants pause before reflexively assuming that the United States Supreme Court alone has all of the answers to the most vexing constitutional questions. If there is a central conviction of the book, it's that an underappreciation of state constitutional law has hurt state and federal law and has undermined the appropriate balance between state and federal courts in protecting individual liberty. In trying to correct this imbalance, the book also offers several ideas for reform." -- Publisher's website.

**Cases on American Constitutional Law (Classic Reprint)** Carl Evans Boyd 2017-10-15  
Excerpt from Cases on American Constitutional

Law In making this collection of cases, it was not my purpose to attempt to rival the notable collection of Professor Thayer. I have had the more modest design of bringing together within the compass of a single volume a sufficient number of the leading decisions of the Supreme Court of the United States on constitutional law to form the basis of a university course in that subject. The so-called case system of study is applied to almost all branches of the law, but its application to constitutional law has been retarded by the obvious impracticability of referring a class to the original reports and by the want of a suitable case book of moderate size. It is to meet such requirements that this collection has been formed. A work of this kind is necessarily a compromise between the desirable and the attainable. The exigencies of space have compelled me to exclude numerous instructive decisions which many persons may expect to find and which I would have been glad to print. For the further economy of space, arguments have

been omitted and the notes are few. It seemed that the pages required for these features could be more profitably devoted to decisions which must otherwise be excluded. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.

*American Constitutional Law, Custom Pub* Louis Fisher 1993-09

**American Constitutional Law for Uk and European Law Students** Value Bar Prep  
2013-11-06 StudyPrivatelyForTheBar.com Daily email tutoring Unblock your head and pass - The series is designed to assist the bar or baby bar candidate prepare for the actual examination day. Techniques for problem solving, issue-recognition, and the performance test are taught in the various books and sections. This book is thus intended to help increase the first and second-time pass rate on the bar and baby bar."

**Legal Aspects of Carbon Trading** David Freestone 2009-10 Since 2005 the carbon market has grown to a value of nearly \$100 billion per annum, including the EU Emissions Trading Scheme and other schemes. This work covers the legal aspects of these schemes, as well as reform of the ETS, and the successor regime to the 1997 Kyoto Protocol currently being negotiated. It will be invaluable to those involved in the field.

*Australian Constitutional Law* Luke Beck  
2019-10-04 *Australian Constitutional Law: Concepts and Cases* is a highly accessible, clear and methodical overview of Australian constitutional law, integrating theory and doctrine. It is both comprehensive and concise. This book takes a conceptual rather than chronological approach to topics. With focussed rather than lengthy case extracts, the book explains what the law is and why various interpretations have been adopted. Clear explanations enable students to understand and engage with constitutional law, including its complexity and nuance. The book's explicit linkages between topics and clear delineation between case extracts and commentary help students make sense of Australian constitutional law as a whole. Conceptual and discussion questions at the end of each chapter facilitate student thinking and discussion about how the law has evolved and how the law is applied. Written by leading constitutional law scholar Luke

Beck, *Australian Constitutional Law: Concepts and Cases* is invaluable for students engaging with Australian constitutional law. [Constitutional Dialogue in Common Law Asia](#) Po Jen Yap 2015 In a comprehensive examination of the constitutional systems of Hong Kong, Malaysia, and Singapore, Po Jen Yap contributes to a field that has traditionally focussed on Western jurisdictions. Drawing on the history and constitutional framework of these Asian law systems, this book examines the political structures and traditions that were inherited from the British colonial government and the major constitutional developments since decolonization. Yap examines the judicial crises that have occurred in each of the three jurisdictions and explores the development of sub-constitutional doctrines that allows the courts to preserve the right of the legislature to disagree with the courts' decisions using the ordinary political processes. The book focusses on how these novel judicial techniques have been

applied to four core constitutional concerns: freedom of expression, freedom of religion, right to equality, and criminal due process rights. Each chapter examines one core topic and defends a model of dialogic judicial review that offers a compelling alternative to legislative or judicial supremacy.

**Fidelity & Constraint** Lawrence Lessig  
2019-04-03 The fundamental fact about our Constitution is that it is old -- the oldest written constitution in the world. The fundamental challenge for interpreters of the Constitution is how to read that old document over time. In *Fidelity & Constraint*, legal scholar Lawrence Lessig explains that one of the most basic approaches to interpreting the constitution is the process of translation. Indeed, some of the most significant shifts in constitutional doctrine are products of the evolution of the translation process over time. In every new era, judges understand their translations as instances of "interpretive fidelity," framed within each new

temporal context. Yet, as Lessig also argues, there is a repeatedly occurring countermove that upends the process of translation. Throughout American history, there has been a second fidelity in addition to interpretive fidelity: what Lessig calls "fidelity to role." In each of the cycles of translation that he describes, the role of the judge -- the ultimate translator -- has evolved too. Old ways of interpreting the text now become illegitimate because they do not match up with the judge's perceived role. And when that conflict occurs, the practice of judges within our tradition has been to follow the guidance of a fidelity to role. Ultimately, Lessig not only shows us how important the concept of translation is to constitutional interpretation, but also exposes the institutional limits on this practice. The first work of both constitutional and foundational theory by one of America's leading legal minds, *Fidelity & Constraint* maps strategies that both help judges understand the fundamental conflict at the heart of interpretation whenever it arises

and work around the limits it inevitably creates.

**State Constitutional Law** Randy James Holland  
2010 This new case book addresses the constitutions of the 50 States. It is designed for a survey course, one that does not purport to cover every State's constitution in detail. Rather, like a traditional contracts, real property or torts textbook, it uses the most interesting state court decisions from around the country to illustrate the astonishing array of state constitutional issues at play in modern American law. The method of presentation emphasizes the function of state constitutions in our federal system. It sometimes does so by explaining how the U.S. Constitution deals with an issue before discussing how the state constitutions handle it, and it sometimes does so by explaining how the state constitutions contain provisions that have no parallel in the U.S. Constitution. A central theme of the book, explored in a variety of areas, is that state constitutions provide a source of rights independent of the Federal Constitution, and

state courts frequently construe these provisions to grant more expansive protection for individual rights than the Federal Constitution provides. As the reader will see, the state courts' expansion of liberty and property rights under their constitutions stems from a variety of factors: differences in the text between the state and federal constitutional provisions, the smaller size of the state courts' jurisdiction, state constitutional history, unique state traditions and disagreement with the U.S. Supreme Court's interpretation of similar language. State constitutional law, like its federal counterpart, is not limited to individual rights. The book also explores the organization and structure of state and local governments, the method of choosing state judges, the ease with which most state constitutions can be amended, taxation, public finance and school funding. As the nightly news confirms, it is no exaggeration to say that many of the most ground-breaking constitutional debates of the day are being aired in the state

courts under their own constitutions. The mission of this book is to introduce students to this increasingly significant body of American law and to prepare them to practice effectively in it.

**American Constitutional Law** Charles A. Shanor 2001

**American Constitutional Interpretation**

Walter F. Murphy 1995

**Beginning Constitutional Law** Nick Howard 2016-07-15 Whether you're new to higher education, coming to legal study for the first time or just wondering what Constitutional Law is all about, Beginning Constitutional Law is the ideal introduction to help you hit the ground running. Adopting a clear and simple approach with legal vocabulary explained in a detailed glossary available on the companion website, Nick Howard breaks the subject of constitutional law down using practical everyday examples to make it understandable for anyone, whatever their background. Diagrams and flowcharts simplify complex issues, important cases are identified

and explained, and on-the-spot questions help you recognise potential issues or debates within the law so that you can contribute in classes with confidence. This second edition has been updated to keep up to date with developments both before and after the 2015 General Election as well as ongoing proposals for reform, including:

- The referendum on independence for Scotland, increased devolved powers and the continued threat of the break-up of the Union.
- Proposals to repeal the Human Rights Act 1998 and replace it with a British Bill of Rights.
- The in/out referendum on EU membership.
- Reform of the role and composition of the House of Lords.

Beginning Constitutional Law is an ideal first introduction to the subject for LLB, GDL or ILEX and especially international students, those enrolled on distance learning courses or on other degree programmes.

**Introduction to American Constitutional Law: Structure and Rights** PROFESSOR WILLIAM F. FUNK 2020-02-05 Unlike most

constitutional law books, this book does not assume that the students have any particular knowledge of American history, government, or law, so it begins with a rich introductory chapter to provide students with a necessary foundation for the rest of the material. Thereafter, it supplements the familiar cases with historical context and pictures and biographies of current and famous justices adjacent to their opinions. It makes the traditional canon accessible and enjoyable to the current generation. Easily covered over two semesters, the book manages through careful case selection to avoid drastic editing of all but the longest cases.

The United Kingdom Constitution N. W. Barber 2021-10-05 This volume is an introduction to the United Kingdom's constitution that recognises its historical, political, and legal dimensions. It pays attention to the revival of the constituent territories of the UK. The constitution is shaped by constitutional principles, including state sovereignty, separation of powers, democracy,

and subsidiarity.

### **Constitutional Law for a Changing America: Rights, Liberties, and Justice (Ninth Edition)**

Lee Epstein 2015-09-15 The Ninth Edition continues well-loved features such as clear delineation between commentary and opinion excerpts, a "Facts" and "Arguments" section before every case, a superb photo program, "Aftermath" and "Global Perspective" boxes, and a wealth of tables, figures, and maps.

The Dynamic Constitution Richard H. Fallon, Jr 2013-04-22 In this revised and updated second edition of *The Dynamic Constitution*, Richard H. Fallon, Jr provides an engaging, sophisticated introduction to American constitutional law. Suitable for lawyers and non-lawyers alike, this book discusses contemporary constitutional doctrine involving such issues as freedom of speech, freedom of religion, rights to privacy and sexual autonomy, the death penalty, and the powers of Congress. Through examples of Supreme Court cases and portraits of past and

present Justices, this book dramatizes the historical and cultural factors that have shaped constitutional law. *The Dynamic Constitution*, 2nd edition, combines detailed explication of current doctrine with insightful analysis of the political culture and theoretical debates in which constitutional practice is situated. Professor Fallon uses insights from political science to explain some aspects of constitutional evolution and emphasizes features of the judicial process that distinguish constitutional law from ordinary politics.

**The Invisible Constitution** Laurence H. Tribe  
2008-09-17 As everyone knows, the United States Constitution is a tangible, visible document. Many see it in fact as a sacred text, holding no meaning other than that which is clearly visible on the page. Yet as renowned legal scholar Laurence Tribe shows, what is not written in the Constitution plays a key role in its interpretation. Indeed some of the most contentious Constitutional debates of our time

hinge on the extent to which it can admit of divergent readings. In *The Invisible Constitution*, Tribe argues that there is an unseen constitution--impalpable but powerful--that accompanies the parchment version. It is the visible document's shadow, its dark matter: always there and possessing some of its key meanings and values despite its absence on the page. As Tribe illustrates, some of our most cherished and widely held beliefs about constitutional rights are not part of the written document, but can only be deduced by piecing together hints and clues from it. Moreover, some passages of the Constitution do not even hold today despite their continuing existence. Amendments may have fundamentally altered what the Constitution originally said about slavery and voting rights, yet the old provisos about each are still in the text, unrevised. Through a variety of historical episodes and key constitutional cases, Tribe brings to life this invisible constitution, showing how it has evolved and how it works. Detailing its

invisible structures and principles, Tribe compellingly demonstrates the invisible constitution's existence and operative power. Remarkably original, keenly perceptive, and written with Tribe's trademark analytical flair, this latest volume in Oxford's Inalienable Rights series offers a new way of understanding many of the central constitutional debates of our time. About the Series: Combining authority with wit, accessibility, and style, Very Short Introductions offer an introduction to some of life's most interesting topics. Written by experts for the newcomer, they demonstrate the finest contemporary thinking about the central problems and issues in hundreds of key topics, from philosophy to Freud, quantum theory to Islam.

**The Constitution of Risk** Adrian Vermeule  
2013-12-02 The Constitution of Risk is the first book to combine constitutional theory with the theory of risk regulation. The book argues that constitutional rulemaking is best understood as a

means of managing political risks. Constitutional law structures and regulates the risks that arise in and from political life, such as an executive coup or military putsch, political abuse of ideological or ethnic minorities, or corrupt self-dealing by officials. The book claims that the best way to manage political risks is an approach it calls "optimizing constitutionalism" - in contrast to the worst-case thinking that underpins "precautionary constitutionalism," a mainstay of liberal constitutional theory. Drawing on a broad range of disciplines such as decision theory, game theory, welfare economics, political science, and psychology, this book advocates constitutional rulemaking undertaken in a spirit of welfare maximization, and offers a corrective to the pervasive and frequently irrational attitude of distrust of official power that is so prominent in American constitutional history and discourse.

**Constitutional and Administrative Law** David Pollard  
2007-06-14 The fourth edition of Constitutional and Administrative Law: Text with

Materials provides a wealth of essential materials drawn from a wide range of sources and integrated with lively commentary. It enables students to gain a full understanding of public law by explaining the context of its historical development and current political climate.

*Constitutional Law for a Changing America* Lee Epstein 2020-08-26 Political factors influence judicial decisions. Arguments and input from lawyers and interest groups, the ebb and flow of public opinion, and especially the ideological and behavioral inclinations of the justices all combine to shape the development of constitutional doctrine. Drawing on political science as much as from legal studies, *Constitutional Law for a Changing America: A Short Course* helps you realize that Supreme Court cases are more than just legal names and citations. With meticulous revising, the authors streamline material while accounting for recent landmark cases and new scholarship. Ideal for a one semester course, the Eighth Edition of *A Short Course* offers all the

hallmarks of the Rights and Powers volumes in a more condensed format. Students and instructors benefit from the online Con Law Resource Center which houses the supplemental case archive, links to CQ Press reference materials, a moot court simulation, instructor resources, and more.

**American Constitutional Law** Donald P. Kommers 2010 *American Constitutional Law Essays, Cases, and Comparative Notes* is a unique casebook that encourages students and citizens of the Constitution to think critically about the fundamental principles and policies of the American constitutional order. The book has two prominent features that distinguish it from other books in the field an emphasis on the social, political and moral theory that provides meaning to constitutional law and interpretation; and a comparative perspective that situates the American experience within a world context that serves as an invaluable prism through which to illuminate the special features of our own constitutional order. While the focus of the book

is entirely on American constitutional law, the book asks students to consider what, if anything, is unique in American constitutional life and what we share with other constitutional democracies. Each chapter is preceded by an introductory essay that highlights these major themes and also situates the cases in their proper historical and political context. For students in the liberal arts, as well as law students seeking a richer encounter with the multifaceted nature of the American constitutional experience, this book addresses all of their concerns. The new edition offers Updated and expanded treatment of key cases on gerrymandering and campaign finance

Expanded discussion of the Court's work federalism and the commerce clause Discussions of the Court's new cases on the death penalty, including a discussion of the controversy within the Court about the propriety of citing foreign case law An expanded discussion of the Court's recent work in the area of privacy, including the Court's decisions with regard to partial birth abortions and same sex marriages An expanded section on the Court's continuing efforts to develop a coherent takings clause jurisprudence Full coverage of new developments and cases concerning affirmative action and school desegregation
