**Uncontrollable Women** Nan Sloane 2022-01-27

Uncontrollable Women is a history of radical, reformist and revolutionary women between the outbreak of the French Revolution in 1789 and the passing of the Great Reform Act in 1832. Very few of them are well-known today; some were unknown even in their own day. All of them contributed something to the world we now inhabit. At a time when women were supposed to leave politics to men they spoke, wrote, marched, organised, asked questions, challenged power structures, sometimes went to prison and even died. History has not usually been kind to them, and they have frequently been pushed into asides or footnotes, dismissed as secondary, or spoken over, for, or through by men and sometimes other women. In this book, they take centre stage in both their own stories and those of others, and in doing so bring different voices to the more familiar accounts of the period. These women and many others played a part in developing political ideas and freedoms as we know them today, and some fought battles which still remain to be won or raised questions that are still unresolved. These are their stories.

**About Time** David Rooney 2021-06-10 'An utterly dazzling book, the best piece of history I have read for a long time' Jerry Brotton, author of A History of the World in Twelve Maps 'Not merely an horologist's delight, but an ingenious meditation on the nature and symbolism of time-keeping itself' Richard Holmes The measurement of time has always been essential to human civilization, from early Roman sundials to the advent of GPS. But while we have one eye on the time every day, are we aware of the power clocks have given governments, military leaders and business owners, and how they have shaped our lives and our world? In this spectacularly far-reaching book, David Rooney narrates a history of timekeeping and civilization in twelve concise chapters. Over their course, we meet the most epochal inventions in horological history, from medieval water clocks to Renaissance hourglasses, and from stock-exchange timestamps to satellites in Earth's orbit. We discover how clocks have helped people navigate the globe and build empires, but also, on occasion, taken us to the brink of destruction. This is the story of time, and the story of time is the story of us.

**Journey into Europe** Akbar Ahmed 2018-02-27 An unprecedented, richly, detailed, and clear-eyed exploration of Islam in European history and civilization Tensions over Islam were escalating in Europe even before 9/11. Since then, repeated episodes of terrorism together with the refugee crisis have dramatically increased the divide between the majority population and Muslim communities, pushing the debate well beyond concerns over language and female dress. Meanwhile, the parallel rise of right-wing, nationalist political parties throughout the continent, often espousing anti-Muslim rhetoric, has shaken the foundation of the European Union to its very core. Many Europeans see Islam as an alien, even barbaric force that threatens to overwhelm them and their societies. Muslims, by contrast, struggle to find a place in Europe

in the face of increasing intolerance. In tandem, anti-Semitism and other forms of discrimination cause many on the continent to feel unwelcome in their European homes. Akbar Ahmed, an internationally renowned Islamic scholar, traveled across Europe over the course of four years with his team of researchers and interviewed Muslims and non-Muslims from all walks of life to investigate questions of Islam, immigration, and identity. They spoke with some of Europe's most prominent figures, including presidents and prime ministers, archbishops, chief rabbis, grand muftis, heads of right-wing parties, and everyday Europeans from a variety of backgrounds. Their findings reveal a story of the place of Islam in European history and civilization that is more interwoven and complex than the reader might imagine, while exposing both the misunderstandings and the opportunities for Europe and its Muslim communities to improve their relationship. Along with an analysis of what has gone wrong and why, this urgent study, the fourth in a quartet examining relations between the West and the Muslim world, features recommendations for promoting integration and pluralism in the twenty-first century.

**Glimpses of Lehi's Jerusalem** John Woodland Welch 2004 Imagine Jerusalem around 600 BC, the world of Lehi, Sariah, Laban, Zoram, Josiah, and Jeremiah. How did people live? What motivated them? And what eventually destroyed their city? The answers to such questions foster better understanding of the prophetic words of Lehi, Nephi, and Jacob in the Book of Mormon. Much of that era was lost forever when Jerusalem met its prophesied fate and was destroyed by the Babylonians. The Temple of Solomon and the city walls were torn down, buildings burned, treasuries looted, people killed or deported, records lost or destroyed, and certain religious beliefs changed or extinguished. Glimpses of Lehi's Jerusalem offers modern readers a vivid look at revealing events in a crucial quarter century in world history.

**Working** Robert A Caro 2019-04-25 Robert A. Caro is one of the most acclaimed writers of his generation, whose landmark biographies are widely hailed as masterpieces. This is the captivating account of his life as a writer, describing the sometimes staggering lengths to which he has gone in order to produce his books and offering priceless insights into the craft of non-fiction

**Houses of Power** Simon Thurley 2017-04-20 'Excellent . . . Fresh, learned, readable and full of life' Dan Jones, Mail on Sunday Houses of Power is the result of Simon Thurley's thirty years of research, picking through architectural digs, and examining financial accounts, original plans and drawings to reconstruct the great Tudor houses and understand how these monarchs shaped their lives. \_\_\_\_\_ What was it like to live as a royal Tudor? Why were their residences built as they were and what went on inside their walls? Who slept where and with who? Who chose the furnishings? And what were their passions? \_\_\_\_\_ The Tudors ruled through the day, throughout the night, in the bath, in bed and in the saddle. Their palaces were genuine power houses - the nerve-centre of military operations, the boardroom for all executive decisions and the core of international politics. Far more than simply an architectural history - a study of private life as well as politics, diplomacy and court - it gives an entirely new and remarkable insight into the Tudor world.

**Toward a Global Middle Ages** Bryan C. Keene 2019-09-03 This important and overdue book examines illuminated manuscripts and other book arts of the Global Middle Ages. Illuminated manuscripts and illustrated or decorated books-like today's museums-preserve a rich array of information about how premodern peoples conceived of and perceived the world, its many cultures, and everyone's place in it. Often a Eurocentric field of study, manuscripts are prisms through which we can glimpse the interconnected global history of humanity. *Toward a Global Middle Ages* is the first publication to examine decorated books produced across the globe during the period traditionally known as medieval. Through essays and case studies, the volume's multidisciplinary contributors expand the historiography, chronology, and geography of manuscript studies to embrace a diversity of objects, individuals, narratives, and materials from Africa, Asia, Australasia, and the Americas-an approach that both engages with and contributes to the emerging field of scholarly inquiry known as the Global Middle Ages. Featuring 160 color illustrations, this wide-ranging and provocative collection is intended for all who are interested in engaging in a dialogue about how books and other textual objects contributed to world-making strategies from about 400 to 1600.

About why Barack Obama opted for Gotham, while Amy Winehouse found her soul in 30s Art Deco. About the great originators of type, from Baskerville to Zapf, or people like Neville Brody who threw out the rulebook, or Margaret Calvert, who invented the motorway signs that are used from Watford Gap to Abu Dhabi. **India and the World** Jawaharlal Nehru 2018-08-15 Jawaharlal Nehru's writings, throughout his life, have exhibited a deep interest in global affairs and India's place in the world. He was aware that a nation is never truly independent and that to really progress as a country, it is important for India to make a mark within world politics. In his correspondence with chief ministers and other cabinet ministers, Nehru would write about the decolonization processes in other parts of the world, of lessons India could learn from different nations, of possible ways to enable cooperation and resist the established power structures of international politics, while also explaining his core foreign policy. With 'India and the World', Nehru provides an interesting-and surprisingly relevant-perspective on how India could stand up to international superpowers. Read on.

**The Oxford History of the Biblical World** Michael D. Coogan 2001-06-07 In this impressive volume, leading scholars offer compelling glimpses into the biblical world, the world in which prophets, poets, sages, and historians created one of our most important texts--the Bible. For more than a century, archaeologists have been unearthing the tombs, temples, texts, and artifacts of the ancient Near East and the Mediterranean world. Using new approaches, contemporary scholars have begun to synthesize this material with the biblical traditions. The Oxford History of the Biblical World incorporates the best of this scholarship, and in chronologically ordered chapters presents the reader with a readable and integrated study of the history, art, architecture, languages, literatures, and religion of biblical Israel and early Judaism and Christianity in their larger cultural contexts. The authors also examine such issues as the roles of women, the tensions between urban and rural settings, royal and kinship social structures, and official and popular religions of the region. Understanding the biblical world is a vital part of understanding the Bible. Broad, authoritative, and engaging, The Oxford History of the Biblical World will illuminate for any reader the ancient world from which the Bible emerged.

*The Story of China* Michael Wood 2020-09-03 'A learned, wise, wonderfully written single volume history of a civilisation that I knew I should know more about' Tom Holland 'Masterful and engrossing...well-paced, eminently readable and well-timed. A must-read for those who want - and need - to know about the China of yesterday, today and tomorrow' Peter Frankopan China's story is extraordinarily rich and dramatic. Now Michael Wood, one of the UK's pre-eminent historians, brings it all together in a major new one-volume history of China that is essential reading for anyone who wants to understand its burgeoning role in our world today. China is the oldest living civilisation on earth, but its history is still surprisingly little known in the wider world. Michael Wood's sparkling narrative, which mingles the grand sweep with local and personal stories, woven together with the author's own travel journals, is an enthralling account of China's 4000-year-old tradition, taking in life stationed on the Great Wall or inside the Forbidden City. The story is enriched with the latest archaeological and documentary discoveries;

correspondence and court cases going back to the Qin and Han dynasties; family letters from soldiers in the real-life Terracotta Army; stories from Silk Road merchants and Buddhist travellers, along with memoirs and diaries of emperors, poets and peasants. In the modern era, the book is full of new insights, with the electrifying manifestos of the feminist revolutionaries Qiu Jin and He Zhen, extraordinary eye-witness accounts of the Japanese invasion, the Great Famine and the Cultural Revolution under Chairman Mao, and fascinating newly published sources for the great turning points in China's modern history, including the Tiananmen Square crisis of 1989, and the new order of President Xi Jinping. A compelling portrait of a single civilisation over an immense period of time, the book is full of intimate detail and colourful voices, taking us from the desolate Mongolian steppes to the ultra-modern world of Beijing, Shanghai and Hong Kong. It also asks what were the forces that have kept China together for so long? Why was China overtaken by the west after the 18th century? What lies behind China's extraordinary rise today? The Story of China tells a thrilling story of intense drama, fabulous creativity and deep humanity; a portrait of a country that will be of the greatest importance to the world in the twenty-first century.

*Glimpses* Pat Fowle 2021-11-12 Most of one's life is not always memorable. I spent a fair amount of my past just chasing the wind, however, I can recall certain events, some of which I will share. I'll stick to glimpses. This is what could be described as a fragmented autobiography; a story told through noteworthy events that have occurred during a colourful life. Some are mystical, some inexplicable. Short stories that involve humour, but most of all love, like threads of gold that run through a lifetime.

*Women and the Vote* Jad Adams 2014 Before 1893 no woman anywhere in the world had the vote in a national election. A hundred years later almost all countries had enfranchised women, and it was a sign of backwardness not to have done so. This is the story of how this momentous change came about. The first genuinely global history of women and the vote, it takes the story of women in politics from the earliest times to the present day, revealing startling new connections across time and national boundaries - from Europe and North America to Asia, Africa, Latin America, and the Muslim world post-9/11. A story of individuals as well as of wider movements, it includes the often dramatic life-stories of women's suffrage pioneers from across the world, painting vivid biographical portraits of everyone from Susan B. Anthony and the Pankhursts to hitherto lesser-known activists in China, Latin America, and Africa. It is also the first major post-feminist history of women's struggle for the vote. Controversially, Jad Adams rejects the widely accepted idea that success was primarily a result of the pressure group politics of the suffragists and their supporters. Ultimately, he argues, it was nationalism, not feminism, that was the most important factor in winning women the vote.

**Letters from a Father to His Daughter** Jawaharlal Nehru 1929 'I Am Going To Write You Short Accounts Of The Story Of Our Earth And The Many Countries, Great And Small, Into Which It Is Divided&I Hope [These] Will Make You Think Of The World As A Whole And Of Other People In It As Our Brothers And Sisters . . .' -Jawaharlal Nehru When Indira Gandhi Was A Little Girl Of Ten, She Spent The Summer In Mussoorie, While Her Father, Jawaharlal Nehru, Was Busy Working In Allahabad. Over The Summer, Nehru Wrote Her A Series Of Letters In Which He Told Her The Story Of How And When The Earth Was Made, How Human And Animal Life Began, And How Civilizations And Societies Evolved All Over The World. Written In 1928, These Letters Remain Fresh And Vibrant, And Capture Nehru'S Love For People And For Nature, Whose Story Was For Him 'More Interesting Than Any Other Story Or Novel That You May Have Read'.

150 Glimpses of the Beatles Craig Brown 2021-10-12 Winner of the 2020 Baillie Gifford Prize for Non-Fiction A distinctive portrait of the Fab Four by one of the sharpest and wittiest writers of our time "If you want to know what it was like to live those extraordinary Beatles years in real time, read this book." -Alan Johnson, The Spectator Though fifty years have passed since the breakup of the Beatles, the Fab Four continue to occupy an utterly unique place in popular culture. Their influence extends far beyond music and into realms as diverse as fashion and fine art, sexual politics and religion. When they appeared on The Ed Sullivan Show in 1964, fresh off the plane from England, they provoked an

epidemic of hoarse-throated fandom that continues to this day. Who better, then, to capture the Beatles phenomenon than Craig Brown—the inimitable author of *Ninety-Nine Glimpses of Princess Margaret* and master chronicler of the foibles and foppishness of British high society? This wide-ranging portrait of the four lads from Liverpool rivals the unique spectacle of the band itself by delving into a vast catalog of heretofore unexamined lore. When actress Eleanor Bron touched down at Heathrow with the Beatles, she thought that a flock of starlings had alighted on the roof of the terminal—only to discover that the birds were in fact young women screaming at the top of their lungs. One journalist, mistaken for Paul McCartney as he trailed the band in his car, found himself nearly crushed to death as fans climbed atop the vehicle and pressed their bodies against the windshield. Or what about the Baptist preacher who claimed that the Beatles synchronized their songs with the rhythm of an infant’s heartbeat so as to induce a hypnotic state in listeners? And just how many people have employed the services of a Canadian dentist who bought John Lennon’s tooth at auction, extracted its DNA, and now offers paternity tests to those hoping to sue his estate? *150 Glimpses of the Beatles* is, above all, a distinctively kaleidoscopic examination of the Beatles’ effect on the world around them and the world they helped bring into being. Part anthropology and part memoir, and enriched by the recollections of everyone from Tom Hanks to Bruce Springsteen, this book is a humorous, elegiac, and at times madcap take on the Beatles’ role in the making of the sixties and of music as we know it.

**Walking With Lions** K. Natwar Singh 2012-12-20 The story goes, apocryphal perhaps, that one day the Ugandan dictator, Idi Amin, told his foreign minister that the country's name must be changed to Idi, and he should inform the UN and all other international bodies. A week passed. President Amin then summoned the minister and asked, 'Did you carry out my orders?' He replied saying that there was a problem. 'What problem?' the president inquired. 'Your Excellency, there is a country called Cyprus. The people are called Cypriots. If Uganda were to be called Idi, we would be called Idiots.' There are few leaders that K. Natwar Singh, in a diplomatic career spanning more than three decades, has not known – and fewer still about whom he has no story to tell. In *Walking with Lions: Tales from a Diplomatic Past*, Singh puts together fifty episodes that entertain, inform and illuminate. Featured here is Indira Gandhi as a statesman and friend, alongside other renowned figures such as Fidel Castro, Haile Selassie and Zia-ul-Haq. Singh analyses some personalities with disarming candour, among them Morarji Desai and Lord Mountbatten; at other times, his admiration for leaders like C. Rajagopalalchari and Nelson Mandela shines through. In these pages you will also find a rare, fascinating glimpse of Godman Chandraswami and his cohort Mamaji, and their interaction with a surprisingly submissive Iron Lady Margaret Thatcher. Besides, there are short tributes to artists, writers, cricketers and film stars, like M.F. Husain, Nadine Gordimer, Don Bradman and Dev Anand. Recounted with empathy and humour, this collection of stories from contemporary history is a warm, unaffected and reassuring reminder that the great too can be as fallible as the rest of us.

**Memoir** Ben Yagoda 2009-11-12 From a critically acclaimed cultural and literary critic, a definitive history and analysis of the memoir. From Saint Augustine’s

Confessions to Augusten Burroughs’s *Running with Scissors*, from Julius Caesar to Ulysses Grant, from Mark Twain to David Sedaris, the art of memoir has had a fascinating life, and deserves its own biography. Cultural and literary critic Ben Yagoda traces the memoir from its birth in early Christian writings and Roman generals’ journals all the way up to the banner year of 2007, which saw memoirs from and about dogs, rock stars, bad dads, good dads, alternadads, waitresses, George Foreman, Iranian women, and a slew of other illustrious persons (and animals). In a time when memoir seems ubiquitous and is still highly controversial, Yagoda tackles the autobiography and memoir in all its forms and iterations. He discusses the fraudulent memoir and provides many examples from the past—and addresses the ramifications and consequences of these books. Spanning decades and nations, styles and subjects, he analyzes the hallmark memoirs of the Western tradition—Rousseau, Ben Franklin, Henry Adams, Gertrude Stein, Edward Gibbon, among others. Yagoda also describes historical trends, such as Native American captive memoirs, slave narratives, courtier dramas (where one had to pay to NOT be included in a courtesan’s memoir). Throughout, the idea of memory and truth, how we remember and how well we remember lives, is intimately explored. Yagoda's elegant examination of memoir is at once a history of literature and taste, and an absorbing glimpse into what humans find interesting—one another.

**Waves Across the South** Sujit Sivasundaram 2021-05-07 "Per the UK publisher William Collins's promotional copy: "There is a quarter of this planet which is often forgotten in the histories that are told in the West. This quarter is an oceanic one, pulsating with winds and waves, tides and coastlines, islands and beaches. The Indian and Pacific Oceans constitute that forgotten quarter, brought together here for the first time in a sustained work of history." More specifically, Sivasundaram's aim in this book is to revisit the Age of Revolutions and Empire from the perspective of the Global South. *Waves Across the South* ranges from the Arabian Sea across the Indian Ocean to the Bay of Bengal, and onward to the South Pacific and Australia's Tasman Sea. As the Western empires (Dutch, French, but especially British) reached across these vast regions, echoes of the European revolutions rippled through them and encountered a host of indigenous political developments. Sivasundaram also opens the door to new and necessary conversations about environmental history in addition to the consequences of historical violence, the extraction of resources, and the indigenous futures that Western imperialism cut short"--
