Teach & Thrive Kristina Valtierra 2016-07-01 Teacher burn out contributes to the epidemic of early career exit. At least half of all new K-12 teachers leave the profession by the time they reach their fifth year of teaching. Conversely, there are urban teachers who survive burn out and thrive as career-long educators. This book results from an in-depth qualitative study that explored one 40-year veteran teacher's career narrative, analyzing how she not only survived the burn out epidemic, but also thrived as a highly effective career-long urban teacher. Part 1 of this book uses a critical socio-political lens is used to guide readers through the complexities of career thrival. Framed within the story of one new urban teacher's typical morning, the book begins with an overview of the socio-political forces that lead to urban teacher burn out. In spite of the obstacles, the more hopeful idea of urban teacher thrival is uncovered through narrative methodology. Part 2 is dedicated to the dynamic narrative of a

veteran urban teacher career journey. This inspiring story is related to frameworks established in Part 1, as well as painting a picture of how public education has evolved over the last 40 years, and its impact on the lives of teachers. Part 3 takes a deeper dive into three salient themes that permeated throughout the participant's story. First hope springs eternal is the idea that sustaining hope supported the teacher's career thrival. Next, the extended education family is the notion that familial?like relationships at school nourished her longevity. The third theme, creative autonomy, reveals that by being empowered with opportunities for curriculum development and instructional decision?making the teacher maintained her passion. This book concludes with recommendations for teachers, educational leaders and teacher educators to develop and maintain thriving teachers.

rules or completing countless convention worksheets, we invite young writers to explore conventions as special effects devices that activate meaning. It aims to represent the views of teachers, scholars, researchers, teacher trainers and curriculum developers from all over the world, from the USA and Japan to Europe. It is addressed to ELT teachers, researchers and professionals who want to reflect upon and develop their knowledge and practice of current issues in English language teaching and learning. Developing Effective Student Peer Mentoring Programs Peter J. Collier 2015-10-09 At a time when college completion is a major issue, and there is particular concern about the retention of underserved student populations, peer mentoring programs offer one solution to promoting student success. This is a comprehensive resource for creating, refining and sustaining effective student peer mentoring programs. While providing a blueprint for

successfully designing programs for a wide range of audiences – from freshmen to doctoral students – it also offers specific guidance on developing programs targeting three large groups of under-served students: first-generation students, international students and student veterans. This guidebook is divided into two main sections. The opening section begins by reviewing the issue of degree non-completion, as well as college adjustment challenges that all students and those in each of the targeted groups face. Subsequent chapters in section one explore models of traditional and non-traditional student transition, persistence and belonging, address what peer mentoring can realistically achieve, and present a rubric for categorizing college student peer-mentoring programs. The final chapter in section one provides a detailed framework for assessing students' adjustment issues to determine which ones peer mentoring programs can appropriately address. Section two of the guidebook shifts from the theoretical

to the practical by covering the nuts and bolts of developing a college student peer-mentoring program. The initial chapter in section two covers a range of design issues including establishing a program timeline, developing a budget, securing funding, getting commitments from stakeholders, hiring staff, recruiting mentors and mentees, and developing policies and procedures. Subsequent chapters analyze the strengths and limitations of different program delivery options, from paired and group face-to-face mentoring to their e-mentoring equivalents; offer guidance on the creation of program content and resources for mentors and mentees, and provide mentor training exercises and curricular guidelines. Section two concludes by outlining processes for evaluating programs, including setting goals, collecting appropriate data, and methods of analysis; and by offering advice on sustaining and institutionalizing programs. Each chapter opens with a case study illustrating its principal points. This book is

primarily intended as a resource for student affairs professionals and program coordinators who are developing new peer-mentoring programs or considering refining existing ones. It may also serve as a text in courses designed to train future peer mentors and leaders.

Differentiated Mentoring and Coaching in

Education Vicki S. Collet 2022 Books abound to guide mentoring and coaching for preservice and inservice teachers' professional learning. However, none fully account for the differences among teachers in experience and expertise and how these factors change over time. This book addresses this need by presenting a dynamic model for teacher/coach interactions, the Gradual Increase of Responsibility (GIR) model for mentoring and coaching. Like students, teachers benefit when support is personalized. The GIR model includes five coaching moves that are selectively used to match support to need. This book guides mentors and coaches in refining their approaches, helping them provide differentiated support to teachers from a range of grade levels, academic areas, contexts, and levels of experience. As strains on teachers escalate, mentoring and coaching using the GIR model is an effective, energizing approach to prepare, sustain, and retain teachers and increase their instructional effectiveness. Book

Features A conceptually simple model that expands upon personalized development in the relational work of coaching. Five coaching interactions that vary incrementally in level of support. Callout boxes with helpful questions, lists, and procedures, plus online resources for additional support. Examples that illustrate how to use the GIR model with teachers from preservice to the expert practitioner. “Reflect and Respond” prompts in each chapter encourage contemplation of the concepts and support application.

Lynne and Rose offer new children's book titles in each chapter and in a carefully curated and annotated Treasure Chest. At the end of each chapter a "Think About It--Talk About It--Write About It" section invites reflection and conversation with colleagues. Poetry Mentor Texts Lynne R. Dorfman 2012
"In Poetry Mentor Texts, Lynne and Rose show teachers how to use poems in both reading and writing workshops and across content areas. Written in a friendly, conversational tone, this practical book explores a variety of poetic forms, including poems that inspire response, list poems, acrostic poems, persona poems, and poems for two voices--versatile forms of poetry that can be used in every grade. Each of these poetic forms has its own chapter featuring five poems with applications for both reading and writing classrooms. Reading connections present skills and strategies to move students forward as readers, helping them to build fluency,

vocabulary, comprehension, phonemic awareness, and phonics. Writing connections help students and teachers discover their own voices and grow as poets and wordsmiths as they try out many poetic forms. Poems help students at all grade levels learn to better address complex reading texts, offering them a chance to dig deeper and use higher-order thinking skills. Additionally, Your Turn writing lessons provide a scaffold for seamlessly moving from modeling to the shared or guided experience and the transfer to independent work. The Treasure Chest offers a brief annotation of the poems discussed in each chapter as well as companion pieces that extend and enhance the work of the reading and writing classroom."--Publisher's description.

TESOL Guide for Critical Praxis in Teaching, Inquiry, and Advocacy Crawford, Jenifer 2021-09-17 The field of TESOL encompasses English teachers who teach English as an additional language in English-

dominant countries and those teachers who teach English as a foreign language in countries where a language other than English is the official language. This range of educators teaches English to children, adolescents, and adults in primary, secondary, post-secondary, popular education, and language academies or tutoring centers. The diversity of learners and contexts within the TESOL field presents a unique opportunity for educators to address varied educational and societal needs. This opportunity calls for TESOL educators who can support the whole learner in a range of contexts for the greater social good. There is an urgent need for readily reproducible and step-by-step research-based practices and current standards in TESOL that bridge the gap between critical scholarship and equitable teaching practices. This book would serve as a critical addition to current literature in TESOL. TESOL Guide for Critical Praxis in Teaching, Inquiry, and Advocacy is an essential reference that provides

practical and equitable step-by-step guides for TESOL educators through the current best practices and methods for effective and equity-minded teaching, critical inquiry, and transformative advocacy. This book is of particular value as it bridges theories to practices with a critical look at racial and social justice in English language teaching, which will lead to the integration of social justice-focused

practice across the new curriculum. Covering topics such as integrated language instruction, equity and inclusivity, critical consciousness, and online learning, this text is essential for in-service and pre-service TESOL educators, education students, researchers, administrators, teacher educators, and academicians.
