Intercultural Couples Jill M. Bystydzienski 2011-05-23 An analysis of intercultural couples in the US

Interracial Couples, Intimacy, and Therapy Kyle D. Killian 2013-09-17 Grounded in the personal narratives of twenty interracial couples with

multiracial children, this volume uniquely explores interracial couples' encounters with racism and discrimination, partner difference, family identity, and counseling and therapy. It intimately portrays how race, class, and gender shape relationship dynamics and a partner's sense of belonging. Assessment tools and intervention techniques help professionals and scholars work effectively with multiracial families as they negotiate difference, resist familial and societal disapproval, and strive for increased intimacy. The book concludes with a discussion of interracial couples in cinema and literature, the sensationalization of multiracial relations in mass media, and how to further liberalize partner selection across racial borders.

Religion and Family Life

Richard J. Petts 2019-05-03

There has been increased interest among scholars in recent decades focused on the intersection of family and religion. Yet, there is still much

that is not well-understood in this area. This aim of this special issue is to further explore the influence of religion on family life. In particular, this issue includes a collection of studies from leading scholars on religion and family life that focus on ways in which religion and spirituality may influence various aspects of family life including family processes, family structure, family formation, family dissolution, parenting, and family relationships. The studies included incorporate both qualitative and quantitative analyses, incorporate a number of different religious traditions, focus on religiosity among both adults and youth, and explore a number of important issues such as depression, intimacy, sexual behavior, lying, divorce, and faith transmission.

A White Side of Black Britain

France Winddance Twine 2010

Focuses on the struggles of white mothers parenting African-descent children in Britain, analyzing the complex, racialized status of these

women and their commitments to antiracism.

According to Our Hearts

Angela Onwuachi-Willig
2013-06-18 DIV This landmark book looks at what it means to be a multiracial couple in the United States today. According to *Our Hearts* begins with a look back at a 1925 case in which a two-month marriage ends with a man suing his wife for misrepresentation of her race, and shows how our society has yet to come to terms with interracial marriage. Angela Onwuachi-Willig examines the issue by drawing from a variety of sources, including her own experiences. She argues that housing law, family law, and employment law fail, in important ways, to protect multiracial couples. In a society in which marriage is used to give, withhold, and take away status—in the workplace and elsewhere—she says interracial couples are at a disadvantage, which is only exacerbated by current law. /div

2014-01-21 This third edition of Joe R. Feagin's *Racist America*

is significantly revised and updated, with an eye toward racism issues arising regularly in our contemporary era. This edition incorporates more than two hundred recent research studies and reports on U.S. racial issues that update and enhance all the last edition's chapters. It expands the discussion and data on concepts such as the white racial frame and systemic racism from research studies by Feagin and his colleagues. The author has further polished the book to make it yet more readable for undergraduates, including eliminating repetitive materials, adding headings and more cross-referencing, and adding new examples, anecdotes, and narratives about contemporary racism. *The Colors of Love* Melinda A. Mills 2021-12-07 "This book explores the experiences of multiracial people in intimate romantic relationships. The author considers how preferred racial identity shapes partner choice and the experiences of being racially mixed in romantic relationships. The

book also examines patterns in multiracial people's romantic careers, to assess how much they are blending and blurring racial borders, or reinforcing them. It illustrates the extent to which members of the "two or more races" population participates in and upholds the current racial hierarchy"--

Beyond Black Kerry

Rockquemore 2008 The urgent debate over a multiracial category in the 2000 census forced the nation to reflect upon the important questions of what it means to construct and maintain a racial identity. Using in-depth interviews and survey data, *Beyond Black* documents how biracial people develop many different racial identities and how these self-understandings are derived from historical and contemporary social, cultural, interactional, and psychological processes.

Racism Albert J. Wheeler 2005

Of all mankind's vices, racism is one of the most pervasive and stubborn. Success in overcoming racism has been achieved from time to time, but

victories have been limited thus far because mankind has focused on personal economic gain or power grabs ignoring generosity of the soul. This bibliography brings together the literature.

The Myth of the Missing Black Father Roberta L. Coles 2010 Common stereotypes portray black fathers as being largely absent from their families. Yet while black fathers are less likely than white and Hispanic fathers to marry their child's mother, many continue to parent through cohabitation and visitation, providing caretaking, financial, and other in-kind support. This volume captures the meaning and practice of black fatherhood in its many manifestations, exploring two-parent families, cohabitation, single custodial fathering, stepfathering, noncustodial visitation, and parenting by extended family members and friends. Contributors examine ways that black men perceive and decipher their parenting responsibilities, paying careful

attention to psychosocial, economic, and political factors that affect the ability to parent. Chapters compare the diversity of African American fatherhood with negative portrayals in politics, academia, and literature and, through qualitative analysis and original profiles, illustrate the struggle and intent of many black fathers to be responsible caregivers. This collection also includes interviews with daughters of absent fathers and concludes with the effects of certain policy decisions on responsible parenting.

Mixed Messages David L. Brunsma 2006 The experiences and voices of multiracial individuals are challenging current categories of race, profoundly altering the meaning of racial identity and in the process changing the cultural fabric of the nation. Exploring this new reality, the authors of Mixed Messages examine what we know about multiracial identities - and the implications of those identities for fundamental issues of justice and equality.

Interracial Families George Alan Yancey 2009-01-07 A unique book offering both a research overview and practical advice for its readers, this text allows students to gain a solid understanding of the research that has been generated on several important issues surrounding multiracial families, including intimate relations, family dynamics, transracial adoptions, and other topics of personal and scholarly interest.

Racing Romance Kumiko Nemoto 2009-07-10 Despite being far from the norm, interracial relationships are more popular than ever. *Racing Romance* sheds special light on the bonds between whites and Asian Americans, an important topic that has not garnered well-deserved attention until now. Incorporating life-history narratives and interviews with those currently or previously involved with an interracial partner, Kumiko Nemoto addresses the contradictions and tensions—a result of race, class, and gender—that Asian Americans and whites

experience. Similar to black/white relationships, stereotypes have long played crucial roles in Asian American/white encounters. Partners grapple with media representations of Asian women as submissive or hypersexual and Asian men are often portrayed as weak laborers or powerful martial artists. *Racing Romance* reveals how allegedly progressive interracial relationships remain firmly shaped by the logic of patriarchy and gender inherent to the ideal of marriage, family, and nation in America, even as this ideal is juxtaposed with discourses of multiculturalism and color blindness.

Mixed Families in a Transnational World Josiane Le Gall 2021-11-30 Offering a transnational perspective on the processes of identity transmission and identity construction of mixed families in various parts of the world, this book provides an overview of how local, national, global contexts and inter-group relations structure the

development of specific forms of belonging and identification. Featuring nine rich ethnographic studies situated in geographic areas less covered by scholarship on mixed families such as Québec, Morocco, Italy, France, Switzerland, Belgium, the Philippines, Thailand and Israel, the book's contributions reveal how families' everyday lives are shaped by historical and sociopolitical contexts, as well as by transnational dynamics and mobility trajectories. The studies illustrate the context-specific realities that shape social definitions of mixedness—whether religious, national, cultural, ethnic or racial—at local and transnational levels. The articulation of local and transnational perspectives on mixed families will be of interest to students and scholars of migration, transnationalism, families, ethnicity, race and racism in the social sciences (anthropology, sociology, history, social work,

international relations and global studies). The book will also be of interest to policymakers, as well as activists and practitioners working in organizations offering services to mixed individuals, migrants, and their families.

A White Side of Black

Britain France Winddance Twine 2010 *A White Side of Black Britain* explores the racial consciousness of white women in the United Kingdom who have had children with black men, primarily British-born men of Caribbean heritage. Contending that social scientists do not adequately understand how white members of black families negotiate race, France Winddance Twine describes the everyday lives of white women raising children of African Caribbean descent in a racially diverse mid-size British city. Varying in age, income, and education, the women at the centre of Twine's ethnography share moving stories about how they met the fathers of their children, how they

incorporate ideas about race and racism into their parenting, and how their thinking about race and social relations changed over time. Interviewing and observing more than forty multiracial families over the span of a decade, Twine discovered that the white women's sense of belonging and racial consciousness was derived as much from their interactions with their partner's family and friends as it was from their romantic relations with black men. In addition to the white birth mothers, Twine interviewed their children, partners, and extended families, and her book can be read in part as a dialogue about race among black and white members of the same families. It includes intimate photographs of the women and their children, partners, extended families, and community.

The Dynamics and Complexities of Interracial Gay Families in South Africa: A New Frontier

Oluwafemi Adeagbo

2018-12-12 This book provides an in-depth account of a qualitative study on the familial arrangements and domestic settings shaping interracial gay partnerships in the South African context, and it offers both empirical and theoretical insights on the topic. While heterosexual intimate relationships, particularly mixed-race couples, have attracted societal and scholarly attention in South Africa due to the country's past history of racial segregation, it is, however, striking how little emphasis is placed on understanding same-sex unions in a transforming South Africa. This book is timely and important because it explores the vignettes, complexities and dynamics of interracial gay intimate relationships, an area that hardly gets the scholarly attention it deserves. The book addresses the intersectionality, and the question of how sexuality, gender, racial identity and personal resources influence the relationship as well as the way resilience strategies are drawn upon to

sustain the partnership.

The Biracial and Multiracial Student Experience

Bonnie M. Davis 2009-08-11 Best-selling author Bonnie M. Davis provides strategies for teaching bi- and multiracial students and deepens readers' understanding of race, ethnicity, and the development of racial identities.

[Fade to Black and White](#) Erica Chito Childs 2009-06-16 There is no teasing apart what interracial couples think of themselves from what society shows them about themselves. Following on her earlier ground-breaking study of the social worlds of interracial couples, Erica Chito Childs considers the larger context of social messages, conveyed by the media, that inform how we think about love across the color line. Examining a range of media, from movies to music to the web, *Fade to Black and White* offers an informative and provocative account of how the perception of interracial sexuality as "deviant" has been transformed in the course of the 20th century and how race

relations are understood today.

Interracial Contact and Social Change

George A. Yancey 2007 ?Yancey masterfully details the promises and pitfalls of interracial contact in the 21st century. Tight, solid, gutsy ? an outstanding contribution to understanding our collective human future.? ?David Brunsma, University of Missouri-Columbia In this thought-provoking analysis, George Yancey reevaluates the controversial ?contact hypothesis? as he explores if and when interracial contact can combat the racial animosity and inequality permeating US society. Yancey draws on quantitative and qualitative investigations of interracial religious congregations, families, and friendships to demonstrate that extensive interactions with people of color can alter the racial attitudes of whites. In the process, he challenges the assumption that contact necessarily results in people of color assimilating white values and culture: it may strengthen

their socioeconomic positions, but it does not subvert their racial identity. Contact, Yancey concludes, is not a panacea for society's racial ills? but it is a vital supplement to the structural changes that must occur. George Yancey is associate professor of sociology at the University of North Texas. He is author of *Who is White?: Latinos, Asians, and the New Black/Nonblack Divide*. Contents: Contact: Part of the Problem, or the Solution? The Potential Effects of Interracial Contact. Where is Interracial Contact the Most Powerful? Does Interracial Contact Change Racial Attitudes? Pathways to Change. Interracial Contact and People of Color. Conclusion: Supporting Change. *Red and Yellow, Black and Brown* Joanne L. Rondilla 2017-07-03 *Red and Yellow, Black and Brown* gathers together life stories and analysis by twelve contributors who express and seek to understand the often very different dynamics that exist for mixed race people who are

not part white. The chapters focus on the social, psychological, and political situations of mixed race people who have links to two or more peoples of color— Chinese and Mexican, Asian and Black, Native American and African American, South Asian and Filipino, Black and Latino/a and so on. *Red and Yellow, Black and Brown* addresses questions surrounding the meanings and communication of racial identities in dual or multiple minority situations and the editors highlight the theoretical implications of this fresh approach to racial studies.

Analyzing Contemporary Fertility Robert Schoen

2020-08-12 This edited volume offers state-of-the-art research on the dynamics of contemporary fertility by examining the implications of the economic and social forces that are driving the rapid change in fertility behavior, and the changing context, determinants, and measurement of contemporary human reproduction. The

volume explores new theoretical avenues that seek to incorporate uncertainty, examine social contagion effects, and explain the rise in childlessness. Reproductive attitudes are re-examined in chapters that deal with models of parenthood and with the persistence of race-ethnic-nativity differences. A new and important subject of multi-partner fertility is also described by examining it in the context of total fertility and from the usually neglected perspective of men. The impact of divorce on fertility, the measurement of childlessness and the postponement of first births, developments in assortative mating and fertility, and current patterns of interracial fertility are also addressed in this volume. By combining up-to-date research spanning the entire field to illuminate contemporary developments, the book is a valuable source for demographers, sociologists, economists, and all those interested in understanding fertility in today's world.

Two Plus Two Geoffrey L. Greif 2012-04-23 Friendships are undeniably important to an individual's health, longevity and wellbeing, but they can be equally important for the health and happiness of a couple. Just as a friend can provide a mirror to the self, another couple can provide a reflecting team that supports or impedes a relationship's growth. *Two Plus Two: Couples and Their Couple Friendships* offers an important framework for helping couples to have conversations about their friendships with other couples and to enrich their own relationships. When couples agree about how to spend their

time alone and with others, they are more likely to have a happy marriage or relationship. Couple friendships have not been researched previously, despite their numerous benefits. Authors Geoffrey Greif and Kathleen Deal take an in-depth approach to this important topic. Based on interviews with more than 400 people--some of whom were interviewed with their partners, some who were interviewed alone, and some who have divorced--they find that couples fall into three general categories of making couple friendships: Seekers, Keepers, and Nesters. Drs. Greif and Deal discuss the different styles of interaction they've observed in couples as well as the findings from their research. Readings from their interviews illustrate what characteristics define Seekers, Keepers, and Nesters. Couples at any stage of their relationship will get a fresh understanding of how to seek, foster and sustain positive, healthy friendships.

In the updated Second Edition of *Getting Real About Race*, editors Stephanie M. McClure and Cherise A. Harris

Boundaries of Love Chinyere K. Osuji 2019-05-21 How interracial couples in Brazil and the US navigate racial boundaries How do people understand and navigate being married to a person of a different race? Based on individual interviews with forty-seven black-white couples in two large, multicultural cities—Los Angeles and Rio de Janeiro—Boundaries of Love explores how partners in these relationships ultimately reproduce, negotiate, and

challenge the “us” versus “them” mentality of ethno-racial boundaries. By centering marriage, Chinyere Osuji reveals the family as a primary site for understanding the social construction of race. She challenges the naive but widespread belief that interracial couples and their children provide an antidote to racism in the twenty-first century, instead highlighting the complexities and contradictions of these relationships. Featuring black husbands with white wives as well as black wives with white husbands, Boundaries of Love sheds light on the role of gender in navigating life married to a person of a different color. Osuji compares black-white couples in Brazil and the United States, the two most populous post-slavery societies in the Western hemisphere. These settings, she argues, reveal the impact of contemporary race mixture on racial hierarchies and racial ideologies, both old and new.

International Journal of Sociology of the Family 2006

Beyond Loving Amy C. Steinbugler 2012-09-06 In this book, Amy Steinbugler challenges the widespread assumption that interracial intimacy represents the ultimate erasure of racial differences. She finds that while interracial partners may be more racially progressive, they are not necessarily enlightened subjects who have managed to get beyond race. *Beyond Loving* adeptly examines how interracial couples experience race in their everyday lives and how they engage one another to address fundamental questions about the significance of race in contemporary life.

Navigating Interracial Borders

Erica Chito Childs 2005-05-24

"One of the best books written about interracial relationships to date. . . . Childs offers a sophisticated and insightful analysis of the social and ideological context of black-white interracial relationships."—Heather Dalmage, author *Tripping on the Color Line* "A pioneering

project that thoroughly analyzes interracial marriage in contemporary America."—Eduardo Bonilla-Silva, author of *Racism without Racists: Color-Blind Racism and the Persistence of Racial Inequality in the United States* Is love color-blind, or at least becoming increasingly so? Today's popular rhetoric and evidence of more interracial couples than ever might suggest that it is. But is it the idea of racially mixed relationships that we are growing to accept or is it the reality? What is the actual experience of individuals in these partnerships as they navigate their way through public spheres and intermingle in small, close-knit communities? In *Navigating Interracial Borders*, Erica Chito Childs explores the social worlds of black-white interracial couples and examines the ways that collective attitudes shape private relationships. Drawing on personal accounts, in-depth interviews, focus group responses, and cultural

analysis of media sources, she provides compelling evidence that sizable opposition still exists toward black-white unions. Disapproval is merely being expressed in more subtle, color-blind terms. Childs reveals that frequently the same individuals who attest in surveys that they approve of interracial dating will also list various reasons why they and their families wouldn't, shouldn't, and couldn't marry someone of another race. Even college students, who are heralded as racially tolerant and open-minded, do not view interracial couples as acceptable when those partnerships move beyond the point of casual dating. Popular films, Internet images, and pornography also continue to reinforce the idea that sexual relations between blacks and whites are deviant. Well-researched, candidly written, and enriched with personal narratives, *Navigating Interracial Borders* offers important new insights into the still fraught racial hierarchies of contemporary society in the

United States.

Symposium 2008

Black Sexualities Juan Battle 2009-11-24 Why does society

have difficulty discussing sexualities? Where does fear of Black sexualities emerge and how is it manifested? How can varied experiences of Black females and males who are lesbian, gay, bisexual, transgender (LGBT), or straight help inform dialogue and academic inquiry? From questioning forces that have constrained sexual choices to examining how Blacks have forged healthy sexual identities in an oppressive environment, *Black Sexualities* acknowledges the diversity of the Black experience and the shared legacy of racism. Contributors seek resolution to Blacks' understanding of their lives as sexual beings through stories of empowerment, healing, self-awareness, victories, and other historic and contemporary life-course panoramas and provide practical information to foster more culturally relative research, tolerance, and acceptance.

The Role of Conflict on the Individual and Society

Theresa MacNeil-Kelly 2020

This book uses a variety of

interdisciplinary approaches, including autoethnography, interpersonal communication, and large-scale societal conflicts, to explore how humans both observe and confront our differences with one another and with the world around us.--Peter Anderson, Florida Southern College
Multiracial Americans and Social Class Kathleen Odell Korgen 2010-04-27 As the racial hierarchy shifts and inequality between Americans widens, it is important to understand the impact of social class on the rapidly growing multiracial population. *Multiracial Americans and Social Class* is the first book on multiracial Americans to do so and fills a noticeable void in a growing market. In this book, noted scholars examine the impact of social class on the racial identity of multiracial Americans, in highly readable essays, from a range of sociological perspectives. In doing so, they answer the following questions: Who is multiracial? How does class influence racial identity? How

does social class status vary among multiracial populations? Do you need to be middle class in order to be an "honorary white"? What is the relationship between social class, culture, and race? How does the influence of social class compare across multiracial backgrounds? What are multiracial Americans' explanations for racial inequality in the United States? *Multiracial Americans and Social Class* is a key text for undergraduate and postgraduate students, researchers, and academics in the fields of sociology, race and ethnic studies, social stratification, race relations, and cultural studies.
