2016-04-28 The Time Lords have a mission for the Doctor. Together with Sarah and Harry, he finds himself stranded on the war-torn planet Skaro where the conflict between the Thals and the Kaleds has been raging for a thousand years. Chemical and biological weapons have started a cycle of mutation among the planet's inhabitants that cannot be stopped. But Kaled scientist Davros has perfected a life support system and travel machine for the creature he knows his

race will ultimately evolve into – the Dalek. The Doctor must stop the creation of the Daleks, or perhaps affect their development so they evolve into less aggressive creatures. But with Davros's plans to destroy the Thals and to wipe out any dissenters among his own ranks in progress, is the Doctor already too late? Torchwood: Something in the Water Trevor

Baxendale 2010-04-13 Dr Bob Strong's GP surgery has been treating a lot of coughs and colds recently, far more than is normal for the time

of year. Bob thinks there's something up but he can't think what. He seems to have caught it himself, whatever it is - he's starting to cough badly and there are flecks of blood in his hanky. Saskia Harden has been found on a number of occasions submerged in ponds or canals but alive and seemingly none the worse for wear. Saskia is not on any files, except in the medical records at Dr Strong's GP practice. But Torchwood's priorities lie elsewhere: investigating ghostly apparitions in South Wales, they have found a dead body. It's old and in an advanced state of decay. And it is still able to talk. And what it is saying is 'Water hag'... Featuring Captain Jack Harkness as played by John Barrowman, with Gwen Cooper, Owen Harper, Toshiko Sato and Ianto

Jones as played by Eve Myles, Burn Gorman, Naoki Mori and Gareth David-Lloyd, in the hit science fiction series created by Russell T Davies for BBC Television.

Adventures With the Wife in Space Neil Perryman 2013-10-31

'One of the oddities of Doctor Who is that you hear so much about what the fans think, and so little from the other 100 percent of the audience (my stats are clinically accurate.) So thank God

for a couple who put their love on the line to set the record straight. This is the story of a fan boy who inflicts every episode ever made of Doctor Who on his marriage. Or to put it another way, this is the story of someone with a proper love and understanding of Doctor Who, trying to explain it to her husband.' Steven Moffat Neil loves Sue. He also loves Doctor Who. But can he bring his two great loves together? In January 2011, Neil Perryman set out on an insane quest to make his wife Sue watch every episode of the classic series of Doctor Who from the very beginning. Even the ones that didn't exist any more. And so, over the next two and half years, Sue gamely watched them all. From William Hartnell and Tom Baker to Peter Davison and Paul McGann,

the result was a wildly successful and hilariously revealing blog called Adventures with the Wife in Space. But the adventure continues. Here Neil Perryman tells the all too true story of Doctor Who fandom. Funny, honest and surprisingly brave, he also captures perfectly the joys - and fears - of sharing the thing you love with the people you love.

Adventures With the Wife in Space is, at its heart, the story of Doctor Who, and its fans, seen through the eyes of two people - one who knows almost nothing about the programme and another who knows way too much. 'This is a very, very funny book; touching too.' Jenny Colgan

Each member of the research team knows exactly what they're looking for – but only the Doctor knows exactly what they'll find. Because only the Doctor knows the true secret of the Phaeron: a monstrous

The Great Time War has raged for centuries, ravaging the universe. Scores of human colony planets are now overrun by Dalek occupation forces. Searching for answers the Doctor meets

'Cinder', a young Dalek hunter. Their struggles to discover the Dalek plan take them from the ruins of Moldox to the halls of Gallifrey, and set in motion a chain of events that will change everything. And

everyone. An epic novel of the Great Time War featuring the War Doctor as played by John Hurt.

Doctor Who: Star Tales

Steve Cole 2019-12-05

'Even though they're gone from the world, they're never gone from me.' The Doctor is many things – curious, funny,

brave, protective of her friends...and a shameless namedropper.

While she and her companions battled aliens and travelled across the universe, the Doctor hinted at a host of previous, untold adventures with the great and the good: we discovered she got her sunglasses from Pythagoras (or was it Audrey Hepburn?); lent a mobile phone to Elvis; had an encounter with Amelia Earhart where she discovered that a pencil-thick spider web can stop a plane; had a 'wet weekend' with Harry Houdini, learning how to escape from chains underwater; and more. In this collection of new stories, Star Tales takes you on a rip-roaring ride through history, from 500BC to the swinging 60s, going deeper into the Doctor's notorious name-dropping and revealing the truth

behind these anecdotes.

With the assassin loose on the mean streets of New Memphis, the Doctor is forced into a strange alliance. Together with teenage private eye Nikki and a ruthless Judoon Commander, the Doctor soon discovers that things are even

Reading between Designs

Piers D. Britton
2010-01-01 From the alien worlds of Star Trek to the realistic operating room of ER, the design of sets and costumes contributes not only to the look and mood of television shows, but even more importantly to the creation of memorable characters. Yet, until now, this crucial aspect of television creativity has received little critical attention,

despite the ongoing interest in production design within the closely allied discipline of film studies. In this book, Piers Britton and Simon Barker offer a first analytical study of scenic and costume design for television drama series. They focus on three enduringly popular series of the 1960s—The Avengers, The Prisoner, and Doctor Who—and discuss such topics as the sartorial image of Steed in The Avengers, the juxtaposition of picturesque and fascistic architecture in The Prisoner, and the evolution of the high-tech interior of Doctor Who's TARDIS. Interviews with the series' original designers and reproductions of their original drawings complement the authors' analysis, which sheds new light on a variety

of issues, from the discourse of fashion to that of the heritage industry, notions of "Pop" and retro, and the cultural preoccupation with realism and virtual reality.
