Home Truths David Lodge 1999 Adrian Ludlow, a novelist with a distinguished reputation and a book on the A level syllabus, is now seeking obscurity in a cottage beneath the Gatwick flight path. His university friend Sam Sharp, who has become a successful screen writer, drops in on the way to Los Angeles, fuming over a vicious profile of himself by Fanny Tarrant, one of the new breed of Rottweiler interviewers, in a Sunday newspaper. Together they decide to take revenge on the interviewer, though Adrian is risking what he values most: his privacy.

A History of Long Island, Vol. 2

Peter Ross
With these books an effort has been made to present the history of the whole of Long Island in such a way as to combine all the salient facts of the long and interesting story in a manner that might be acceptable to the general reader and at the same time include much of that purely antiquarian lore which is to many the most delightful feature of local history. Long Island has played a most important part in the history of the State of New York and, through New York, in the annals of the Nation. It was one of the first places in the Colonies to give formal utterance to the doctrine that taxation without representation is unjust and should not be borne by men claiming to be free—the doctrine that gradually went deep into the hearts and consciences of men and led to discussion, opposition and war; to

the declaration of independence, the achievement of liberty and the founding of a new nation. It took an active part in all that glorious movement, the most significant movement in modern history, and though handicapped by the merciless occupation of the British troops after the disaster of August, 1776, it continued to do what it could to help along the cause to which so many of its citizens had devoted their fortunes, their lives. This is volume two out of three, covering the history of Kings County, Brooklyn and Queens.

Modern Criticism and Theory David Lodge 1988 'A Reader' aims to provide, within the covers of a single book, a selection of important and representative work from all the major theoretical schools or tendencies in contemporary criticism, and to place them before the reader in two alternative orders: one historical, the other thematic.

Author, Author David Lodge 2004 David Lodge's novel begins at James' midlife, the last twenty years of the 19th century when James' fortunes were at their lowest, culminating in his largest debacle, the failure of his play "Guy Domville." At the center of the novel is his friendship with the writer George Du Maurier, who provides James with the story behind Trilby. When James passes on using it for the basis of a novel, Du Maurier writes it instead and it becomes a bestseller. Du Maurier,

however, has difficulty coping with success while James decides he must try harder to achieve it.

The Year of Henry James David Lodge 2006 Where do novelists get their 'ideas' from? How do they develop an idea into a narrative with a specific and individual form? How far is the reception of a work of fiction conditioned by factors outside the writer's control? In the first part of this book, in revealing and often amusing reminiscence, David Lodge traces the history of his recent novel about Henry James, AUTHOR, AUTHOR, from the very first mention of the basic idea in his notebook, through the processes of research and writing, to the publication and reception of the finished book, which was adversely affected by the appearance of another novel on the same subject some six months earlier. These two were not the only novels inspired by Henry James in circulation in the year 2004, a phenomenon which Lodge sees with hindsight as 'a coincidence waiting to happen', with ironic consequences that the Master himself might have invented. The essays in the second part pursue the themes of genesis, composition and reception in the work of other novelists. There are studies of key works by James himself, H.G.Wells, Vladimir Nabokov, J.M.Coetzee and Umberto Eco, and essays on the literary sources of Graham Greene's imagination and on a significant anthology of the 'Best of Young American Novelists'. Collectively the contents of this book throw a brilliant light on the dominant literary form of the last two centuries, in its twin aspects as work of art and commodity.

History of Criminal Justice Mark Jones 2011-07-11 Covering criminal justice history on a cross-national basis, this book surveys criminal justice in Western civilization and American life chronologically from ancient times to the present. It is an introduction to the historical problems of crime, law enforcement and penology, set against the background of major historical events and movements. Integrating criminal justice history into the scope of European, British, French and American history, this text provides the opportunity for comparisons of crime and punishment over boundaries of national histories. The text concludes with a chapter that addresses terrorism and homeland security. * Spans all of western history, and examines the core beliefs about human nature and society that informed the development of criminal justice systems. The fifth edition gives increased coverage of American law enforcement, corrections, and legal systems * Each chapter is enhanced with supplemental "Timeline," "Time Capsule," and "Featured Outlaw" boxes as well as discussion questions, notes and problems * Contains discussion questions, notes, learning objectives, key terms lists, biographical vignettes of key historical figures, and "History Today" exercises to engage the reader and encourage critical thinking

The Negro Motorist Green Book Victor H. Green The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you

know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race. Hanoi's Road to the Vietnam War, 1954-1965 Pierre Asselin 2015-08-18 "Using new and largely inaccessible Vietnamese sources as well as French, British, Canadian and American archives, Pierre Asselin sheds valuable light on Hanoi's path to war. Step by step the narrative makes Hanoi's revolutionary strategy from the end of the French Indochina War to the start of the Anti-American Resistance Struggle for Reunification and National Salvation (the Vietnam War) transparent. The book reveals how North Vietnamese leaders moved from a cautious policy emphasizing nonviolent political and diplomatic struggle to a far riskier pursuit of military victory"--

Slavery and the British Country House Andrew Hann 2013 In 2007 English Heritage commissioned initial research into links with transatlantic slavery or its abolition amongst families who owned properties now in its care. This was part of the commitment by English Heritage to commemorate the bicentenary of the abolition of the

British transatlantic slave trade with work that would make a real difference to our understanding of the historic environment in the longer term. The research findings and those of other scholars and heritage practitioners were presented at the 'Slavery and the British Country House' conference which brought together academics, heritage professionals, country house owners and community researchers from across Britain to explore how country houses might be reconsidered in the light of their slavery linkages and how such links have been and might be presented to visitors. Since then the conference papers have been updated and reworked into a cutting edge volume which represents the most current and comprehensive consideration of slavery and the British country house as yet undertaken.

The Significance of the Frontier in American History Frederick Jackson Turner 2008-08-07 This hugely influential work marked a turning point in US history and culture, arguing that the nation's expansion into the Great West was directly linked to its unique spirit: a rugged individualism forged at the juncture between civilization and wilderness, which - for better or worse - lies at the heart of American identity today. Throughout history, some books have changed the world. They have transformed the way we see ourselves - and each other. They have inspired debate, dissent, war and revolution. They have enlightened, outraged, provoked and comforted. They have enriched lives - and destroyed them. Now Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization and helped make us who we are.

Imagined Histories Anthony Molho 1998 This collection of essays by twenty-one distinguished American historians reflects on a peculiarly American way of imagining the past. At a time when history-writing has changed dramatically, the authors discuss the birth and evolution of historiography in this country, from its origins in the late nineteenth century through

its present, more cosmopolitan character. In the book's first part, concerning recent historiography, are chapters on exceptionalism, gender, economic history, social theory, race, and immigration and multiculturalism. Authors are Daniel Rodgers, Linda Kerber, Naomi Lamoreaux, Dorothy Ross, Thomas Holt, and Philip Gleason. The three American centuries are discussed in the second part, with chapters by Gordon Wood, George Fredrickson, and James Patterson. The third part is a chronological survey of non-American histories, including that of Western civilization, ancient history, the middle ages, early modern and modern Europe, Russia, and Asia. Contributors are Eugen Weber, Richard Saller, Gabrielle Spiegel, Anthony Molho, Philip Benedict, Richard Kagan, Keith Baker, Joseph Zizak, Volker Berghahn, Charles Maier, Martin Malia, and Carol Gluck. Together, these scholars reveal the unique perspective American historians have brought to the past of their own nation as well as that of the world. Formerly writing from a conviction that America had a singular destiny, American historians have gradually come to share viewpoints of historians in other countries about which they write. The result is the virtual disappearance of what was a distinctive American voice. That voice is the subject of this book.

America, History and Life 1989 Article abstracts and citations of reviews and dissertations covering the United States and Canada.
Encyclopedia Of Freemasonry And Its Kindred Sciences, Volume 3: M-R Albert G. Mackey Dr. Albert G. Mackey appears as author of this " Encyclopedia of Freemasonry and its Kindred Sciences," which, being a library in itself, superseded most of the Masonic works which have been tolerated by the craft - chiefly because none better could be

obtained. Here is a work which fulfils the hope which sustained the author through ten years' literary labor, that, under one cover he "would furnish every Mason who might consult its pages the means of acquiring a knowledge of all matters connected with the science, the philosophy, and the history of his order." Up to the present time the modern literature of Freemasonry has been diffuse, lumbering, unreliable,

and, out of all reasonable proportions. There is, in Mackey's "Encyclopaedia of Masonry," well digested, well arranged, and confined within reasonable limits, all that a Mason can desire to find in a book exclusively devoted to the history, the arts, science, and literature of Masonry. This is volume three out of four and covering the letters M to R.
